#### **COVID Risk Assessment**

School/ Setting	ALTRINCHAM COLLEGE	Date of Assessment 09/09/21	Updated 13.12.21
Assessment Completed By	K EARLE		

#### **Staying COVID Secure – Our Commitment**

- ✓ We recognise the risk posed by Coronavirus (COVID-19) to our staff, pupils and their families. Control measures to minimise the risk of infection and the transmission of the virus are provided in this Risk Assessment.
- ✓ We will ensure, as far as is reasonably practicable, the Health, Safety and Wellbeing of our staff and pupils.
- ✓ We will share this Risk Assessment and its findings with employees and parents/carers and consult on its contents.
- ✓ We will continue to comply with all relevant Health and Safety Legislation
- ✓ If any events are scheduled to take place in school, a separate risk assessment will be completed.

Due to the current spike in positive cases in Trafford, all staff and students are advised to wear face coverings in all internal communal areas eg. In corridors, in assemblies, in canteen/café when not eating or drinking.

#### **Employees**

Ref	Control Measure	Yes	No	N/A	Additional Action Taken / Further Information
01	All Clinically Extremely Vulnerable (CEV) should currently attend their place of work if they cannot work from home.  An individual risk assessment will be done by the school for staff who are classed as CEV.				All staff individual risk assessments will be reviewed and updated regularly.

00	All	<b>.</b>	 	
02	All employees must not attend school if they have one or more Covid-19 symptoms (a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell), or they have had a positive test (LFD or PCR) or if told by Test and Trace to self-isolate. They must stay away from school for 10 days from the day after the start of their symptoms or their positive test date.  If a staff member becomes symptomatic they should arrange to have a test as soon as possible and follow the 'Stay at Home Guidance'  If a staff member develops symptoms of Covid-19 whilst at work, they must be sent home immediately and begin a 10-day isolation period.  If the staff member tests negative, the staff member can return to work as soon as they are well and no longer have symptoms of coronavirus.  Staff are not required to self-isolate if they live in the same household as someone with COVID-19, or are a close contact of someone with COVID-19, and any of the following apply:			If you have, or feel that you have, symptoms of coronavirus, you must apply for a PCR test to check if you have the virus.  NHS Test and Trace: how it works - GOV.UK (www.gov.uk)  Information on getting a test is available at: Coronavirus (COVID-19): getting tested - GOV.UK (www.gov.uk)  Also refer to the additional Trafford Public Health Guidelines.
	they are fully vaccinated			Staff, pupils and families will be reminded that they should not attend school, even if they are feeling better, until they receive their test results.

- they are below the age of 18 years and 6 months
- they have taken part in or are currently part of an approved COVID-19 vaccine trial
- they are not able to get vaccinated for medical reasons

Staff will take daily LFT tests for 10 days if they are a close contact of a household positive case and wear face coverings in communal areas at school

If staff are not fully vaccinated, they should selfisolate immediately if someone in their household/support bubble becomes symptomatic or if they have been identified as a close contact in school.

#### **Omicron Variant**

From Tuesday 14 December, people who are fully vaccinated and identified as a contact of someone with COVID-19 – whether Omicron or not – should take an NHS rapid lateral flow test every day for 7 days to help slow the spread of COVID-19.

https://www.gov.uk/government/news/daily-rapid-testing-for-covid-19-contacts-launchesthis-week

People currently in isolation as a contact of a positive case, can come out of isolation from

Staff should continue to test at home twice a week if they are not a close contact or do not have Covid within the household.

All staff will be informed via email 13/12/21 and new W&I letter be used from 14/12/21. Parents/carers will be informed 13/12/21.

	tomorrow (14/12/21) and continue to daily LFD test. Adults who are not fully vaccinated, must still isolate as a close contact of a confirmed Covid case and their 10-day isolation period will commence from the last point of contact with the confirmed or suspected case.  Anyone who has had a positive PCR result must continue to isolate until their isolation end date.  Under 5s do not need to take part in daily testing.  Daily rapid testing applies to all contacts who are:  • fully vaccinated adults – people who have had 2 jabs • all children aged 5 to 18 years and 6 months, regardless of their vaccination status		
03	The school will regularly keep in touch with colleagues who are self-isolating or working from home to monitor and support their Physical and Mental Health & Wellbeing		Contact will be made by the SLT Link for that member of staff.

04	The school will provide suitable information and equipment to work at home safely and effectively and will provide additional aids and adaptations where required.		In the event of lockdown, staff remote working requirements will be assessed for individuals by JSH/RBW and members of SLT.
05	The school will ask staff to voluntarily inform them if they are double vaccinated so they can hold an up-to-date list of anyone aged 18 yrs and 6 months for business continuity reasons.		Reminders in staff briefings from Sept.
	Additional Information:		

# Pupils

Ref	Control Measure	Yes	No	N/A	Actions Taken
					Details / Further Information
06	All <u>Clinically Extremely Vulnerable</u> pupils should attend their education setting unless they are one of the very small number of children and young people under paediatric or other specialist care who have been advised by their GP or clinician not to attend.  Parents must notify school of any child who may				Parents/Carers will be reminded via bulletins, letters and emails to inform school if their child is CEV so that individual risk assessments can be carried out by RBW.
	be registered as clinically extremely vulnerable.				
07	All pupils with a COVID-19 positive test result should stay at home and self-isolate immediately.				

	Pupils with symptoms of COVID-19, no matter how mild, should arrange to have a PCR test as soon as possible. They must not attend school until their test result is known. If test is negative, and they are well, the pupil can return to their school.  Pupils aged under 18 years, 6 months are advised to stay at home to self-isolate if a sibling or household member tests positive with COVID-19. (via either a PCR or Lateral flow test) They should take a PCR test on day 2/3 (following the onset of symptoms in the household or test date with no symptoms) either by visiting a test site or ordering one online. If the test is negative they can return to school. If the PCR is negative students should take a daily LFT test before attending school for 10days from the initial onset of symptoms of the household member.  If positive, they must follow the Stay at Home Guidance.		Students should isolate again immediately and get another test should they develop symptoms of Covid 19 at a later date.
08	Where a pupil is unable to attend their school because they are complying with clinical or public health advice, access to remote education will be provided. Schools will monitor engagement with this activity.		

09	It is no longer recommended that it is necessary to keep children in consistent groups ('bubbles').  Schools will make sure their outbreak management plans cover the possibility that in some local areas it may become necessary to reintroduce 'bubbles' for a temporary period, to reduce mixing between groups.		
10	<ul> <li>Rapid testing using Lateral Flow Devices (LFD)s will support the return to education in January 2022 by helping to identify people who are asymptomatic;</li> <li>Secondary school pupils will complete 1 onsite test, on return to school, before moving to regular twice weekly tests at home.</li> <li>We will ensure we can set up a small testing facility on site if needed to allow for those unable to take LFD test at home.</li> <li>School staff and students should complete twice weekly tests at home.</li> </ul>		Secondary schools have a Lateral Flow Device Testing risk assessment in place for their on-site test centre.  All schools have a Lateral Flow Testing risk assessment in place for the provision, supply and storage for home Lateral Flow Device Tests.  We will stagger the return to school for year groups to allow for LFD testing.  Sixth Formers will test before coming back to school and must show proof of a negative test on their return. LFD testing will be available to them on the first day back should they require it.  Staff and students will be reminded to continue to conduct LFD tests twice a week. Kits are supplied by school.

## **Social Distancing**

Ref	Control Measure	Yes	No	N/A	Actions Taken Details / Further Information
11	Although social distancing is no longer a legal requirement for staff and pupils, Head Teachers still have a legal duty to ensure the health and safety of their staff.				<ul> <li>When there is an increase in local Covid-19 cases, considerations will be given to ensuring social distancing amongst staff- e.g;</li> <li>Stagger the use and limit the occupancy of staff room and offices by employees and ensure staff maintain social distancing.</li> <li>Ensure maximum occupancy of each room is calculated to ensure staff can maintain social distancing.</li> <li>Car sharing should be avoided where possible</li> </ul>

## Infection Control, Cleaning and Hygiene Arrangements

Ref	Control Measure	Yes	No	N/A	Actions Taken Details / Further Information
12	Staff and pupils who are experiencing symptoms associated with COVID-19 are instructed not to attend school.  They will be required to take a PCR test either visiting a test site or ordering one online. If test is negative, and they are well, they can return to their school.				Regular reminders and notices displayed

	If positive, they must follow the Stay at Home Guidance.  Staff and parents must fully engage with the NHS Track and Trace process.		
13	Staff who experience symptoms as above whilst at work to immediately go home and follow the <a href="Stay at Home Guidance">Stay at Home Guidance</a> .		Reminders via briefings and emails.
14	Pupils who experience COVID-19 symptoms should be collected from school/ setting as soon as possible. They should be kept 2m apart from all other pupils and staff whilst on site.  Whilst awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the pupil, with appropriate adult supervision if required. The room should be well ventilated by opening a window, if safe to do so.  If a pupil needs direct personal care or the 2m distance cannot be maintained until they can return home, staff should wear the appropriate PPE.  If the pupil needs to go to the bathroom while waiting to be collected, they should use disabled toilet. This toilet will be cleaned and disinfected		Where the child or staff member tests negative, they can return to their setting if they no longer display COVID-19 related symptoms.  Where the child or staff member tests positive, the school will contact the local health protection team who will work with the school and guide the school through the actions needed and will provide will provide advice on who requires to be sent home.  A Covid waiting area is still designated in school.  PPE supplies will be maintained.  Cleaning schedule maintained.

Those who have not been vaccinated must

isolate for 10 days.

using standard cleaning products before being used by anyone else. Once the pupil has been collected, the staff member should dispose of their PPE safely then wash their hands thoroughly for 20 seconds. The affected area will then be cleaned with normal household disinfectant to reduce the risk of passing the infection on to other people. The pupil will be required to take a PCR test either visiting a test site or ordering one online. If test is negative, and they are well, they can return to their school. Staff/ pupils who test positive for COVID 19 should self-isolate for 10 days. Close contacts should take a PCR test but do not need to isolate: they can continue to attend the school setting whilst they are waiting for their results (unless they develop symptoms or contacted by NHS Track & Trace to isolate). **Omicron Variant** Staff will ensure seating plans are adhered to All close contacts of confirmed or suspected in order to ease identification of close Omicron cases in educational settings who contacts who need to self-isolate. have been vaccinated, will be required to take daily LFD tests for 7 days but do not need to self isolate.

	The 10-day isolation period will commence from the last point of contact with the confirmed or suspected case.		
15	Hand sanitisers will be available at all entrances to the school and throughout the school and will be regularly monitored and maintained.		Signage to highlight this Regular checks by Site Team to ensure these are topped up
16	All staff and pupils will be encouraged to regularly wash their hands with soap and water, or to sanitise their hands, especially upon arrival at school, prior to eating, following breaks and lunch time and any other time deemed necessary (for example, after coughing or sneezing).  Pupils will be encouraged to sanitise their hands when they change rooms.  In addition to the measures above, staff are also advised to wash their hands before and after handling any materials shared with pupils.		Signage, assembly reminders, FT reminders and encouragement Regular checks by Site Team/cleaners to ensure soap/sanitiser available at all times
17	All staff and pupils are encouraged to cough / sneeze into tissues and dispose of these in appropriate waste disposal bins. (Catch it, Kill it, Bin it).  The school will provide sufficient tissues for use by staff and pupils. Staff within classrooms are responsible for ensuring that there are adequate supplies of tissues in their rooms.		Staff to see Site Team for supplies. Displays refreshed.

	Additional lidded bins and increased emptying /		
18	replacement are provided / in-place.  Equipment that may need to be shared (laminators, guillotines, items of equipment used in the class that will be then used by someone else, etc.) should be cleaned and sanitised after use.  Cleaning materials will be available throughout the school to allow cleaning of shared materials.		Site Team will provide materials for cleaning/sanitising as required. Staff reminded via briefings; displays refreshed to remind students.
19	All working areas within the building will be well-ventilated (Windows and Doors open) where safe and appropriate to do so and a comfortable teaching environment should be maintained by increasing the heating where necessary.  Classroom windows should be open to allow natural ventilation (in cooler weather windows should be opened just enough to provide constant background ventilation and opened more fully during breaks to purge the air in the space) and if safe to do so, external opening doors may also be used.  Standalone air-conditioning units may be used as normal.  Where it is difficult to maintain a comfortable temperature, the school will consider allowing		Good ventilation can be achieved by a variety of measures including:      mechanical ventilation systems – these will be adjusted to increase the ventilation rate wherever possible and checked to confirm that normal operation meets current guidance and that only fresh outside air is circulated. If possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply      natural ventilation – opening windows (in cooler weather windows should be opened just enough to provide constant background ventilation and opened more fully during breaks to purge the air in the

pupils to wear additional items of clothing in addition to the school's uniform.	space). Opening internal doors can also assist with creating a throughput of air  • natural ventilation – if necessary external opening doors may also be used (as long as they are not fire doors and where safe to do so).  To balance the need for increased ventilation while maintaining a comfortable temperature, we will consider:  • opening high level windows in colder weather in preference to low level to reduce draughts  • increasing the ventilation while spaces are unoccupied (for example, between classes, during break and lunch, when a
	room is unused)  • providing flexibility to allow additional, suitable indoor clothing  Heating will be used as necessary to ensure comfort levels are maintained in occupied spaces.  Poorly ventilated spaces will be identified and steps taken to improve fresh air flow in these areas, giving particular consideration when holding events where visitors such as parents are on site, for example school plays.

20	A regular cleaning schedule will be maintained. This should include twice daily cleaning (using detergent and hot water followed by a chlorine based disinfectant solution) of all areas and equipment, with a particular focus on frequently touched surfaces:  • Toilets • Door Handles/ Access Buttons • Kitchen areas and associated equipment • Water dispensers/ coolers • Printers/ Photocopiers • White Boards • Play Equipment  Public Health (PH) have published guidance on cleaning.			Site Team to ensure this is maintained
21	Staff and pupils are provided with instructions on how to achieve effective hand-washing; for example, in the form of posters, written guidance and videos clips etc.			Hand-Washing Guidance Hand-Washing Video Hand-Washing Poster
22	Suppliers and contractors who attend the school will be advised infection control arrangements, no-access areas and expectations around personal hygiene.	$\boxtimes$		

## Response To An Infection

Ref	Control Measure	Yes	No	N/A	Actions Taken
					Details / Further Information
23	Sufficient understanding and processes are in place to respond to a confirmed case of COVID 19 in school:  - Those with symptoms book a test - Contact Outbreak Management and Contact Tracing Hub, (OMCTH) (covidtrace@trafford.gov.uk) when become aware of a confirmed case (OMCTH will also contact schools when they become aware of a confirmed case) OMCTH will then work with school to determine actions to be taken Outbreak management plan is implemented if requested in response to request from local Director of Public Health, Test and Trace or OMCTH.				See Outbreak Management Plan Below
24	If an outbreak occurs, the school's Covid-19 outbreak management plan is implemented. Remote/distance learning contingency arrangements for all pupils should be maintained in case of school/ year group closure during any local lockdown.				See Outbreak Management Plan Below

## **Key Roles and Responsibilities**

Ref	Control Measure	Yes	No	N/A	Actions Taken Details / Further Information
25	Sufficient staffing and resources are in place to maintain the security of the building and its occupants, including relief staff when necessary.				
26	Sufficient staffing and resources are in place to maintain the cleanliness of the building and to carry out necessary inspections of consumables needed to maintain hygiene.				
27	Sufficient numbers of trained staff are in place to provide recommended First Aid provision.				List to be updated regularly and staff training renewed.
28	Sufficient numbers of staff are in place to enable safe evacuation of the building in the event of an emergency.  New advice of fire doors and fire evacuation drills has been issued to schools: Revised Fire Guidance				

## **Statutory Premises Compliance and Maintenance**

Re	Control Measure	Yes	No	N/A	Actions Taken
					Details / Further Information

29	PPM (Planned Preventative Maintenance) work will continue to be delivered for critical building systems (Life-Safety) including:		
	<ul> <li>Fire Alarm and Detection</li> <li>Powered Doors / Gates</li> <li>Legionella and Water Testing</li> <li>Electrical Safety</li> <li>Gas Safety</li> <li>PAT Testing</li> <li>Asbestos Management</li> </ul>		
	All PPM will be undertaken taking into account the schools social distancing and hygiene arrangements.		
30	Defect Reporting arrangements are in place and all staff are aware of the arrangements.		Staff regular reminders via briefings Site Team ticketing system established

#### **Outbreak Management**

Outbreak Management Plan (OMP) outlines how the school would operate if additional measures are recommended for your setting or the local area. The Director of Public Health, Public Health England Health Protection Teams or the Local Authority could recommend certain measures are re-introduced. This may happen to help manage outbreaks in schools, or if there is an "extremely high prevalence" of Covid-19 in the community and other measures have failed to reduce transmission, or as part of a package of measures "responding to a variant of concern".

N.B- THE FOLLWING CONTROL MEASURES DO NOT NEED TO BE PUT INTO PLACE UNLESS RECOMMENDED BY THE DIRECTOR OF PUBLIC HEALTH, PHE HEALTH PROTECTION TEAMS OR THE LOCAL AUTHORITY.

Ref	Control Measure	Yes	No	N/A	Actions Taken  Details / Further Information
01	If there is significant concern that existing or recently introduced measures in an area have failed to mitigate community transmission, or that a more robust response is required in an outbreak, or where there are cases identified as a Variant of Concern (VoC), it may be necessary to limit the number of children and young people in education or childcare settings through attendance restrictions.  ATTENDANCE RESTRICTIONS SHOULD ONLY BE CONSIDERED AS A LAST RESORT FOLLOWING THE DFEs 'CONTINGENCY FRAMEWORK' AND, IN COLLABORATION WITH PUBLIC HEALTH AND THE LOCAL AUTHORITY.				<ul> <li>Ensure remote learning platform remains.</li> <li>Provision in place for key worker children attendance (as per national lockdowns).</li> </ul>

02	When a variant of COVID-19 is classed as a variant of concern (VoC), DHSC will increase targeted testing in that area to help suppress and control any possible new cases and better understand the new variants.  See above re: Omicron variant.		<ul> <li>We will set up our Asymptomatic Testing Site.</li> <li>Increased use of home testing for staff.</li> </ul>
03	There may be a need to re-introduce temporary year/class bubbles to reduce mixing between groups.		<ul> <li>If year/ class group bubbles need to be implemented, sufficient time will be needed to re-timetable this</li> <li>Staggered entrance/ exit times (if possible)</li> <li>Use of different entrances (if possible)</li> <li>Staggered/ limited use of communal areashall/ dining room etc.</li> </ul>
04	Temporary re-introduction of face coverings. This has been adopted in light of the Omicron Variant. In all cases any educational drawbacks in the recommended use of face coverings should be balanced with the benefits in managing transmission and should allow for reasonable exemptions for their use.		<ul> <li>Face coverings worn by staff and visitors in communal areas unless they are exempt.</li> <li>Face coverings worn by pupils in communal areas/ all areas</li> </ul>
05	Temporary re-introduction of shielding in the event of a major outbreak or variant of concern that poses a significant risk to individuals on the shielded patient list.		Individual risk assessments regularly reviewed and specifically in line with any updated government guidance regarding VoCs.

		G CAN ONLY BE RE-INTRODUCED NAL GOVERNMENT.					Remote learning platform in place for pupils who are advised to shield.
06	activities: - residentia - open day - transition - parental a	and taster days attendance in settings nces in settings				•	Risk assessments in place.
