

Transition Website Quiz

We have created a ten-question quiz, the answers to which can all be found somewhere on our school website (www.altrinchamcollege.com).

The school website is full of useful information that you will find useful both now and as you move through the school and sixth form.

We have listed the questions below, but we also thought that once you have found all of your answers, it would be lovely for you to then actually submit them to us. This can be done really easily using the link below. We really encourage you to get involved.
