Dear Staff and pupils,

I am writing on behalf of The Village Surgery at Timperley Health Centre to thank you for your extremely generous donation of eye protection glasses.

We really are extremely grateful for your generous gift and hopefully it will enable us to continue to safely support some of the most vulnerable patients in our local community with continued face to face appointments and home visits.

We have been struggling to acquire eye protection due to national shortages and it really has been humbling to see the level of help and support that we have received from the local community, including yourselves, to help support local health organisations.

Thank you once again and keep following national guidance on social distancing and only going out for essential trips. This really will help in the longer term.

Yours gratefully,

Dr Michael Stamp.
